Bar chart showing the coefficient of standard deviation (csd) for different Cp values (1 to 21). The y-axis is labeled 'csd' and ranges from 0.0000 to 0.0015. The x-axis is labeled 'Cp' and ranges from 1 to 21. The bars are orange with black outlines. The height of the bars decreases as Cp increases. Each bar has a dashed vertical line extending upwards from the top, representing a confidence interval or standard deviation.
