A bar chart showing the coefficient of standard deviation (csd) for different values of C_p (1 to 21). The y-axis is labeled 'csd' and ranges from 0.00000 to 0.00012. The x-axis is labeled ' C_p '. The bars are orange with black outlines. A horizontal dashed line is at approximately 0.000105. The csd values are relatively constant, around 0.00004, for all C_p values.
