A bar chart showing the standard deviation (csd) of the estimated parameters for different values of C_p (1 to 21). The y-axis is labeled 'csd' and ranges from 0.000 to 0.003. The x-axis is labeled ' C_p ' and ranges from 1 to 21. The bars are orange with black outlines. The standard deviation decreases as C_p increases, starting at approximately 0.0016 for $C_p=1$ and ending at approximately 0.0011 for $C_p=21$. Each bar has a black horizontal line indicating the mean and dashed vertical lines indicating the standard deviation.
