The chart displays the coefficient of standard deviation (csd) for different Cp values. The y-axis, labeled 'csd', ranges from 0.000 to 0.012. The x-axis, labeled 'Cp', shows values from 1 to 21. Each bar is orange with a black outline and a thick black horizontal line at approximately 0.0025. Dashed vertical lines extend from the top of each bar to the top of the plot area.
