

A bar chart showing the mean value of c_{mean} for different values of C_p . The x-axis is labeled C_p and ranges from 1 to 21. The y-axis is labeled c_{mean} and ranges from $0e+00$ to $4e-05$. For C_p values 1 through 9, the mean value is near zero. For C_p values 10 through 21, the mean value is approximately $2e-05$, with error bars indicating variability.
