

[illegible]

Box plot showing the distribution of  $csd$  (Y-axis, ranging from  $0e+00$  to  $3e-04$ ) for different values of  $C_p$  (X-axis, ranging from 1 to 21). The plot displays the median, quartiles, and range (whiskers) for each  $C_p$  value. The distributions are generally stable across the range of  $C_p$  values.
