

The figure shows a plot of c_{mean} versus C_p . The y-axis, labeled c_{mean} , has major tick marks at -1.0, -0.5, 0.0, 0.5, and 1.0. The x-axis, labeled C_p , has major tick marks at 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, and 21. A horizontal dashed line is drawn at $c_{mean} = 0.0$, extending across the entire range of C_p from 1 to 21.
