appendage development  
ammonium transport  
appendage morphogenesis  
sex specification  
central nervous system neuron differentiation  
dephosphorylation  
ear development  
embryonic appendage morphogenesis  
embryonic digit morphogenesis  
embryonic limb morphogenesis  
embryonic organ morphogenesis  
gland development  
inner ear development  
limb development  
limb morphogenesis  
nucleosome assembly  
nucleosome organization  
pollen development  
pattern specification process  
regeneration  
distal system development  
leukocyte cell migration  
leukocyte development  
testis development  
dermatophyte development  
hemipole cell adhesion via plasma membrane adhesion molecules  
kidney development  
neural system development  
urogenital system development
