A bar chart showing the coefficient of standard deviation (csd) for different values of  $C_p$  (1 to 21). The y-axis is labeled 'csd' and ranges from 0.0000 to 0.0020. The x-axis is labeled ' $C_p$ ' and ranges from 1 to 21. The bars are orange with black outlines. The height of the bars decreases as  $C_p$  increases. Each bar has a black horizontal line across its middle and a dashed vertical line extending from the top to the bottom of the plot area.

$C_p$	csd (approx.)
