

[illegible]

Box plot showing the distribution of csd (Y-axis, ranging from 0.000 to 0.015) across different values of C_p (X-axis, ranging from 1 to 21). The plot displays the median, quartiles, and range (whiskers) for each C_p value. The median csd is relatively stable around 0.0035, while the range decreases as C_p increases.
