

[illegible]

Box plot showing the distribution of CSD (Y-axis, ranging from 0.0000 to 0.0020) across different values of C_p (X-axis, ranging from 1 to 21). The plot displays the median (black horizontal line within the box), the interquartile range (orange box), and the range (dashed whiskers) of the data for each C_p value. The median CSD is consistently around 0.0005, while the range of CSD values decreases as C_p increases.
