A bar chart showing the mean and standard deviation of the number of iterations for different values of C_p (1 to 21). The y-axis represents the number of iterations, ranging from 0.0000 to 0.0020. The x-axis is labeled C_p . Each bar is orange with a black outline. A horizontal black line is drawn across the bars at approximately 0.0002. Dashed vertical lines extend from the top of each bar to the top of the plot area, indicating the standard deviation.

Bar chart showing the distribution of Cp values for the 21 samples. The x-axis is labeled 'Cp' and ranges from 1 to 21. The y-axis ranges from 0.0000 to 0.0020. Each bar represents a sample, with a black horizontal line indicating the mean Cp value and a dashed vertical line indicating the standard deviation. The mean Cp values are approximately 0.0002 for all samples, and the standard deviations are approximately 0.0018 for all samples.
