Bar chart showing the coefficient of standard deviation (csd) for different values of C_p (1 to 21). The y-axis is labeled 'csd' and ranges from 0.000 to 0.012. The x-axis is labeled ' C_p ' and ranges from 1 to 21. The bars are orange with black outlines. The height of the bars decreases as C_p increases. Each bar has a dashed vertical line extending upwards from its top, representing a confidence interval or standard deviation. The bars are centered around a value of approximately 0.0035.
