A bar chart showing the standard deviation (csd) of the estimated parameters for different values of  $C_p$  (1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21). The y-axis is labeled 'csd' and ranges from 0e+00 to 6e-05. The x-axis is labeled 'Cp' and ranges from 1 to 21. The bars show that the standard deviation is relatively constant across all  $C_p$  values, around 3e-05.
