

[illegible]

Box plot showing the distribution of csd values for different C_p values (1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21). The y-axis represents csd (ranging from 0.00000 to 0.00020). The plot displays the median (horizontal line within the box), the interquartile range (the box itself), and the range of the data (whiskers). The distributions are generally stable across the range of C_p values.
