A bar chart showing the coefficient of standard deviation (csd) for different values of C_p (1 to 21). The y-axis is labeled 'csd' and ranges from 0.000 to 0.004. The x-axis is labeled ' C_p ' and has values 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21. The bars are orange with black outlines. The csd values are relatively constant, around 0.0015, with error bars indicating variability.
