A bar chart showing the coefficient of standard deviation (csd) for different values of  $C_p$  (1 to 21). The y-axis is labeled 'csd' and ranges from 0.00000 to 0.00020. The x-axis is labeled ' $C_p$ '. The bars are orange with black outlines. The csd values are relatively constant across  $C_p$ , around 0.00009. Error bars are shown for each bar.
