A bar chart showing the coefficient of standard deviation (csd) for different values of C_p . The y-axis is labeled 'csd' and ranges from 0.0000 to 0.0020. The x-axis is labeled ' C_p ' and ranges from 1 to 21. The bars are orange with black outlines. The height of the bars decreases as C_p increases. Each bar has a black horizontal line at its base and a dashed vertical line extending upwards.
